

Fellows Program Pre-Proposal 2019-2020

PURPOSE

The purpose of the L.T. Jordan Fellows Program is to provide highly qualified Texas A&M University undergraduate and graduate students with an opportunity for personal enrichment and education through an international research experience. This is achieved by program participants designing a specific independent international research project in another country that will enhance their academic or career goals. The program annually selects up to ten qualified students to receive a grant of up to \$2,000 with which to assist trip expenses. As a part of the program, the Fellows must prepare their own travel itineraries, description of research activities, budget estimates, and an extensive report and public presentation describing the experience abroad.

ELIGIBILITY

1. Applicants must be currently enrolled at Texas A&M University (College Station) as undergraduate or graduate students who will have at least one semester of additional enrollment after the Fellows experience. Undergraduate students applying for the L.T. Jordan Undergraduate Research Fellows program must be enrolled for an additional two semesters after the Fellows experience.
2. Undergraduate students and professional school students must have a minimum GPA of 3.0, while graduate students must have a minimum GPA of 3.25.
3. Applicants must be U.S. citizens or Permanent Residents and have a valid passport.
4. Non-paying internships are acceptable as long as the application is accompanied by a letter of intent and responsibilities from the host.

Deviations from these eligibility requirements will be considered upon written appeal by the applicant to the L.T. Jordan Fellows Program Director.
